# National Numeracy Day

What an amazing National Numeracy Day!

Not only was there some super maths going on in every part of the school, but we also were part of a new Guinness World Record!

There was hip-swinging, number confidence boosting dancing with Strictly Come Dancing's star Katya Jones; number rapping with poet and mathematician Harry Baker; and fun in the kitchen with pizza making, which got the children thinking differently about numbers and how we use them every day!

Check out the photos and videos from all of our maths activities.

# Number BLOCKS
