2021-2022 (Survey on Mentimeter)

We asked the children to give us 3 words to describe their experiences of All Saints' Primary School, this is the word art it created. The larger words mean that more than one child chose that word.

2021-2022 (Survey on Mentimeter)

The children were then asking how to scale how they felt in school and most of them all agreed with the statements, many children saying they strongly agreed.

I really enjoy doing PE at school because it's fun. Even in my wheelchair!

All saints school is lovely in my old school i did not feel included and now at All saints i have a lot of friends and it makes me feel amazing and awake and ready to go and support in my learning .

Here are some of the comments the children made when asked to tell us about their learning.

My learning is going well and Miss Cocks is great at pushing me to the limits wanting to get the best from me so that I can get my work to greater depth level.

I like all the equipment and the teachers are very helpful and kind and I enjoy the lessons

All saints school is fun and lovely and it will make u happier and makes me fell safe, and can make more friends and they can support you and u can get good and support your learning and you can have help anytime:)

Homework club and football club. I enjoyed going to the horse national museum and the tudor trip. I went to a church trip too and buddhist centre.

Finally, the children were asked to tell us about their Extra-Curricular Activities.

I've been on a trip just for me to the horse racing museum and I'm trying to take my dad there now. I've been to homework club too.

Ive been in after school clubs like wacky snacky and homework club, ive enjoyed the large amount of school trips we've been on
