Legacy	I can explain how farming is an important food source.

Knowledge Gems

 <p><b>Chronology</b></p>	I can place the Stone Age (850,000-3000BC), Bronze Age (2,300BC) and Iron Age (1,200BC) of prehistoric Britain on a timeline.
	I know prehistoric Britain ends with the Roman invasion in 43AD. During this time people were known as Celts.
 <p><b>People</b></p>	I can explain the main differences of Stone Age to Iron Age Britain including how daily life changed for people going from being nomadic to becoming farmers.
	I can describe the jobs needed by Stone Age society (hunting, gathering, farming, fishing, weaving)
 <p><b>Legacy</b></p>	I know during the Stone Age people used (hammers, axes, spears, arrows, pestle and mortar), during the Bronze Age people replaced stone for bronze and during the Iron Age bronze was replaced by iron.
	I know that Stonehenge and Skara Brae are Stone Age sites that can be visited today.

Words we need to know

1	Neolithic	The most recent period of the Stone Age, about 10,000 BC, where nomadic lifestyles had stopped and agriculture was widespread.
2	Nomadic	A way of life that involved moving from place to place.
3	Agriculture	Tasks associated with farming, like growing crops, harvesting and tending livestock.
4	Livestock	Farm animals
5	Excavation	Carefully digging up pieces of the past
6	Chisel	The act of shaping stone with other tools
7	Artefacts	Objects from long ago
8	Ancestors	The people who were our great, great, great... grandparents.

Sentence stems:

A major difference between...      One similarity includes...      As a result of...

What we will learn next
